

DR. TAYLOR'S BALM OF LIVERWORT.
This Balm is for sale by the proprietor, at 375 Bowery, between Fourth and Fifth streets, New York—R. H. Coleman, 123 Market street, Baltimore; and by LEWIS JOHNSON, at his Store, Tobacco, and Fancy Store, four doors east of the Washington City Post Office; also numerous agents throughout the United States.
As an example of the multitude of certificates we have received in proof of this medicine, the following are submitted:
Dear Sir: I feel unqualified pleasure in the opportunity now offered me of expressing my approbation of your Balm of Liverwort, and the success I have ever obtained from its administration. I have used your medicine in upwards of sixty cases, comprising all stages of disease, from incipient cold and cough to advanced phthisis, and have invariably found immediate relief. I recommend it cheerfully in all cases where the chest and lungs are affected, particularly in consumption, with scrofulous diathesis. For chronic, severe pain in the chest, spitting of blood, &c. I have no hesitation in pronouncing your vegetable medicine unrivaled.
With respect, your obedient servant,
GEO. CAMPBELL, M.D.
And Member of the College of Surgeons, Edinburgh.
New York, January 2, 1839.

WONDERFUL CURE OF CONSUMPTION!
Although Dr. Taylor's Balm of Liverwort has found hundreds of advocates, and has produced so large a number of testimonials in its favor, I cannot withhold my small need of praise. Being predisposed to consumption, both from peculiar formation and hereditary transmission, I tried every means to check this disease, and strengthen naturally a weak constitution. I spent two years at Pisa, one in Rome, two in Florence, and another in the south of France, seeking, meantime, the advice of the best physicians. Two years since I returned to this country in about the same situation as when I left it. I had seen in the reading rooms of Europe much said in favor of Dr. Taylor's Balm of Liverwort, and, as soon as I arrived in this city, I used it, and in three months I was so well I concluded I could safely pass the winter here, and did so. I have used an occasional bottle now and then during the time, but am now in as good health as possible. My cough has wholly ceased, and my lungs have every feeling of health.
JAMES HILL,
Western Hotel, Courtland street, N. Y.

LIVER COMPLAINT AND COUGH!—Having taken a violent cold, which settled on my lungs and liver, producing a severe cough and pain in the side and shoulder, which was so severe at times I could scarcely turn over in bed, I was gradually wasting away, and weary even of my life. My cough was very distressing, and, being accompanied with nausea, loss of appetite, debility, and other distressing symptoms, my suffering was extreme. Finding no benefit from any medicine, nor from any physician, I got a bottle of Dr. Taylor's Balm of Liverwort, which soon made me well and able to attend to my business.
GEORGE YOUNG,
Druggist, 376 Fulton street, Brooklyn.

COUGH, PAIN IN THE SIDE AND CHEST CURED!—Having for a long time been distressed with a severe pain in the side and chest, accompanied with a dry cough, I was induced, upon the urgent solicitation of a friend, to try Dr. Taylor's Balm of Liverwort, and I must say the medicine answered its purpose admirably. My distress was produced by a severe hurt, and was so great that I was with difficulty I could swallow my food. Indeed, I was satisfied this disease must have terminated in consumption, or some fatal disease, had it not been cured by this judicious medicine. To all who seek to prolong their lives, I would advise the use of Dr. Taylor's Balm of Liverwort.
JAMES COWAN, 426 Bowery.

LIVER COMPLAINT, COUGH, AND SHORTNESS OF BREATH!—Having been severely ill for a long time with the liver complaint, and also a severe cough and great shortness of breath, and being cured from these distressing evils by the use of that tried medicine, Dr. Taylor's Balm of Liverwort, I feel it incumbent on me as a Christian, and philanthropist, to publish the facts. The awful distress of shortness of breath, together with a severe cough and the liver complaint was sufficient to make life hateful, but, thank God, I am now well. To Dr. Taylor's Balm of Liverwort, I shall mean I can induce the sick to use his medicine. I shall feel that I am doing a duty to him and to them. His medicine for diseases of the lungs and liver is worthy of all praise. It has saved my life and two other of my friends, and I believe will cure all who take it. Let all persons try it, and health will be less than.

MR. HARVEY, 17 Norfolk street.
FOR CONSUMPTION, COUGHS, COLDS, &c.—Mr. J. B. Sutton, 25 Adams street, Brooklyn, has been for many years subject to diseased lungs, especially a bad cough, pain in the breast, shortness of breath, &c. As his business exposed him very much, he was continually taking fresh colds, and at length was unable to attend his business. Finding all the medicines he used did him no good, he resolved to try Dr. Taylor's Balm of Liverwort, and he was finally restored to a degree of health he had not enjoyed for years. He says he has recommended this medicine to all his friends sick with coughs or consumption, and they have all been cured by its wonderful virtue. We will publish their testimony in a few days. We have received 200 certificates from Brooklyn, showing the great merit of this medicine, all of which shall be published.

CONSUMPTION AND LIVER COMPLAINT.—Suffering as I have for three years with these diseases, I feel from my heart for all persons equally unfortunate, and, therefore, I beg of them, if they love life and health, and if they love their families and friends, not to lay and die under the hands of mercenary doctors or their useless trash, but try Dr. Taylor's Balm of Liverwort. This medicine cured me when I was so ill I could not turn over in bed without assistance, and the mineral doctors said I could not live a week, yet this vegetable medicine cured me in six weeks. I had a hacking cough, pain in the sides, raising of matter, night sweats, and was wasted to the bone; also, inward fever.
J. B. MILLS, Milkman, Newtown, L. I.

CONSUMPTION, AND LIVER COMPLAINT.—For a long time I suffered with these diseases, and was the more alarmed, as I had lost two brothers and two sisters with the consumption. I had the best medical advice in vain; every remedy was tried without effect, and I was almost in despair. I was wasting away, very nervous, had a bad cough, loss of strength, and many other dangerous symptoms. At length I tried Dr. Taylor's Balm of Liverwort, and I must say this medicine cured me like a charm. Its great restorative powers should be made known.
W. HOLDRIDGE, 161 Green street.

RAISING OF BLOOD.—This disease is easily cured by the proper medicine. Mr. Newbury, 266 Bowery, used to raise blood in large quantities, both by day and night; besides this, he had a severe cough and pain in his breast; yet, after using every other medicine, he was cured by Dr. Taylor's Balm of Liverwort. This man is a carman; and let all others who cannot afford to be idle follow his example, if they are sick, and use this medicine. It will restore diseased lungs and liver in a very short time. Remember, the genuine medicine is sold at 375 Bowery.

DR. MASON'S HOP PILLS.—More than 10,000 boxes of these pills have been sold in Philadelphia since their first introduction there in June last. They are entirely vegetable, not a particle of Calomel, or any mineral poison. They are very mild in their operation, and their beneficial results in breaking up colds, relieving coughs, head aches, and all other complaints showing an oppressed state of the system are wonderful. Perfectly safe in all circumstances, and no attention to diet. We could give the names of many honorable and distinguished men in Washington in their favor, but as the Ladies are the best judges of these things, please ask Mrs. Hepburn, Steam Boat Landing, Mrs. Grier, 10th Street, Mrs. E. F. Brown, C Street, Try & see, according to the directions, and you will ask for no other recommendation.

CAUTION.
WE are called on to caution the public, the Druggists in particular, against purchasing from any traveler under whatever pretences they may be offered, any of **DR. EVANS' INVALUABLE MEDICINES**, as their unprecedented success in the cure of Consumption, Dyspepsia, Liver Complaint, Indigestion, Costiveness, Loss of Appetite, Palpitation of the Heart, Pain in the Head, Breast, Back and Limbs, Dizziness, Restlessness, and all diseases originating in the Stomach, Heart, Lungs, Liver, and the associate organs, &c., has caused a reckless impostor, who it is ascertained, has been travelling through Pennsylvania, Maryland, Virginia, &c., to counterfeit and vend a deleterious imitation of **EVANS' CAMOMILE AND APERIENT PILLS**; and another impostor has introduced into Pennsylvania, &c., a spurious article, purporting to be **PARRIS' SOOTHING SYRUP**, for children when cutting their teeth—both of which are deleterious counterfeits. Therefore, in order to protect the public against the inroads of such impostors, and to secure them the benefit which his Genuine Medicines never fail bestowing, he has caused the label of **EVANS' CAMOMILE & PILLS**, to be entered according to an act of Congress.
A notice of which entry is printed on the labels on every bottle of the Genuine Pills, and he has caused the name of Dr. J. L. Parris to be stricken out of the label of his celebrated Soothing Syrup, for children when cutting their teeth, so that the label of the genuine syrup reads **"DR. WM. EVANS' SOOTHING SYRUP,"** an infallible remedy for the pain and sickness to which children are subject when cutting their teeth, and approved by the highest medical authorities, who have by its early application, not only prevented their children from suffering excruciating pain but in many instances rescued them from death.
Be particular in examining the labels, and also in knowing that Dr. Evans never vends any of his medicines save through the medium of his resident agents, as advertised throughout the Union, or at the Western Office, Louisville, Ky., and his principal office 100 Chatham Street, New York, where wholesale orders will be promptly executed on the most liberal terms.
The public must rest assured that in every instance that comes within the knowledge of Dr. Evans, or any of his agents, where the Counterfeit Medicines are purchased or vended, he will give them the earliest public notice of the imposture. Already have proceedings both civil and criminal been instituted against several Druggists who have been detected, and their names will be laid before the public at an early date. **THE BEST PROTECTION** he can offer for the present, is to caution purchasers to obtain his Medicines from the

DR. GOODE'S CELEBRATED FEMALE PILLS.
These Pills are strongly recommended to the notice of the Ladies as a safe and effectual remedy in removing those complaints peculiar to their sex, from want of exercise, or general debility of the system, obstructions, suppersions, and irregularity of the menses, at the same time, strengthening, cleansing, and giving tone to the stomach and bowels, and producing a new and healthy action throughout the system generally. They cure appetite, correct indigestion, remove giddiness and nervous headache, and are eminently useful in those complaints which distress females so much as the "turns of the month." They obviate costiveness, and counteract all systematic and nervous afflictions, likewise afford soothing and permanent relief in florid albus, and in the most obstinate cases of chlorosis, or green sickness, they invariably restore the pallid and delicate female to health and vigor.
These pills have gained the sanction and approbation of the most eminent physicians in the United States, and many others can likewise testify to their extraordinary efficacy. To married females, whose expectations of the happiest pleasures of conjugal happiness have been defeated, these Pills may be truly esteemed a blessed boon. They soon remove all functional debility, and if taken according to directions, obviate all morbid action.
Dr. GOODE'S CELEBRATED FEMALE PILLS, are for all the following diseases: Suppression, irregularity or retention of the menses, Aur albus, chlorosis or green sickness, costiveness, gravel, incontinence of urine, nervous affections, hysterics, prolapsus uteri, or falling of the womb, and piles; also, pains in the side, chest, limbs, head, stomach, back, and loins, or confusion of sight; altered condition of the heart and chilliness of the extremities; agitation; anxiety; bad dreams, and spasms. This medicine is acknowledged to be one of the most valuable ever discovered as a purifier of the blood and fluids; it is superior to sarsaparilla, whether as a sudorific or alterative.

INTERESTING AND APPLICABLE TO THE AFFLICTED, WITH DISEASES OF THE STOMACH, OR NERVES, such as Dyspepsia either Chronic or Casual, under the worst symptoms of Restlessness; Lowness of Spirits and general emaciation; Consumption, whether of the Lungs or Liver; Liver Affections; Jaundice, both Bilious and Spasmodic; Costiveness; Worms, of every variety; Rheumatism, whether Acute or Chronic, together with Gout, Scrofula, Pains in the Head, Back, Limbs, and Side; Typhus Fever, Scarlet Fever, Measles, Sore Throat, Fever and Ague, Spasmodic Palpitation of the Heart and Chilliness of the extremities; Nervous Weakness, Hysterics, Tic Douloureux, Cramps, Female Obstructions, Heartburn, Headache, Cough, the Common or Humid, and the Dry or the Whooping; Asthma, Gravel, and Drops.
The Blood has hitherto been considered by Empiricks and others, as the great regulator of the human system, and such is the devotedness of the adherents to that erroneous doctrine, that they content themselves with the simple possession of this fallacious opinion, without enquiring into the primary causes from whence Life, Health and Vigor emanate, and a rice versa pain, sickness, disease and death. Not so with Dr. Hunt, whose extensive research and practical experience so eminently qualify him for the profession of which he has been one of the most useful men of his age. He contends—and a moment's reflection will convince any reasoning mind of the correctness of his view—that the stomach, liver, and associated organs are the primary and great regulators of health, and that the blood in very many instances is dependent on these organs, and that unless medicine reaches **THE ROOT OF THE DISEASE**, the superficial anodynes usually prescribed, serve but as foils to cover the ravages of deeprooted maladies. Under these convictions, at the expense of years of close application, the doctor has discovered a medicine whose searching powers are irresistible, and in prescribing it, it is with knowledge of its being a radical cure. In the various diseases already enumerated, even if applied in the most critical cases, but do not pretend to ascribe to HUNT'S BOTANICAL PILLS a supernatural efficacy, although from positive proofs within the knowledge of hundreds, he is prepared to show, that when every other earthly remedy has been given up, HUNT'S BOTANICAL PILLS have never been known to fail in effecting two very gratifying results, that of raising from the bed of sickness and disease those who have tested their efficacy, and thus amply rewarding Dr. Hunt for his long and anxious study to attain this perfection in the healing art.

APPROVED SURGEON'S TRUSSES, for the radical cure of Hernia, or Rupture, by HEBER CHASE, M. D., Philadelphia.
The Committee of the Philadelphia Medical Society, for the investigation of the radical cure of Hernia, observe:
"Fully impressed with the extreme caution required in forming conclusions concerning changes of structure taking place in parts of the body concealed, and not only by the integuments, but by tendinous matter and fasciae, and where the nature of the disease renders the opportunity of post mortem examination exceedingly rare, your committee has been desirous to avoid that blameable haste in the decision of important questions which has too frequently given to plausible but ingenious methods of treatment a temporary reputation, to the abuse of public confidence and the injury of the profession, by granting to empiricism the weight and influence of great names."
"The instruments of Dr. Chase have effected the permanent and accurate retention of the intestines in every case of hernia observed by the committee, without material inconvenience to the patient, and often under trials more severe than are usually ventured upon by those who wear other trusses—trials which would be imprudent with any other apparatus known to the committee."
"The committee are induced, by the foregoing conclusions, to recommend, in strong terms, the instruments of Dr. Chase to the confidence of the profession, as the best known means of mechanical retention in hernia, and as furnishing the highest chances of saving the patient."
"They have no hesitation in saying that were they individually affected with this terrible disease, they would resort to this method of treatment, with the triple view of securing their comfort, safety, and ultimate chance of recovery."

REYNELL COATES, M. D.,
WM. ASHMEAD, M. D.,
ISAAC PARRISH, M. D.,

"All must now admit of the radical cure of Hernia, and that Dr. Chase's Trusses are decidedly the best yet invented to effect that object."—Southern Medical and Surgical Journal.

THE SOUTHERN SILK MANUAL, and Farmer's Magazine. This work will be published under the auspices of a number of gentlemen actively engaged in the cultivation of *Morus Mutila*, feeding of the worms, and the manufacture of silk. It will be edited by F. YEATES REESE, and furnished to subscribers at one dollar per annum.
Ample arrangements have been made, and correspondents established, to enable the editor to present a work containing all the information necessary to the planting and cultivation of the trees, the feeding of the worms, and the successful management of the entire silk business. The work will also contain valuable information on agriculture and farming generally.
It will be the particular object of the editor to promote the interest of those engaged in the silk culture in the Southern and Western States; as there the cultivator possesses peculiar advantages in respect to climate, soil, labor, &c.
Orders by letter, (post paid) with the subscription for the year, will receive prompt attention. Address E. YEATES REESE, Baltimore.

DR. PHELPS'S COMPOUND TOMATO PILLS.
The testimony of hundreds of Physicians and distinguished individuals, to the curative effects of these Pills, in every variety of climate in the United States, Texas, and the Canadas, establishes them as the most pleasant and efficient medicine ever discovered.
In addition to their being the most agreeable and efficient cathartic that can be used, in Dyspepsia, Constipation, Rheumatism, Headache, Worms, Inflammation of the Bowels, Liver affections, Bilious Stomach, Colds, and the commencement of Fevers; Sickness, &c. their operation is powerfully directed to the glandular system, removing all obstructions of the glands wherever situated; Scrophulous and Scrophulous taints, in their incipient forms; and if persevered in affording all reasonable relief in cases of confirmed and neglected scrofula.
Taken either a short time before or after exposure, they render the system less liable to contract contagious or epidemic diseases, and should be resorted to by persons residing in low and marshy situations, or when traveling, or exposed to contagion. Also persons attending the sick, who by long watching and fatigue, or exposure to the effluvia of the sick room, become debilitated, and lose their appetite, will find great assistance from these Pills, in renovating and purifying the system, and restoring the functions to a healthy state. Persons debilitated by intense and long application of business or study, and those also of sedentary habits, will derive great benefit from an occasional use of them.
For that congested and deranged state of the system, which occurs in the autumn and commencement of winter, these Pills are particularly applicable, in preventing rheumatism, coughs, congestion of the lungs, &c. and have prolonged many a life, which otherwise would have been a sacrifice to the changes of seasons.
Be particular to inquire for Dr. G. R. Phelps, and see that the proprietor's signature is on the label. Price 37 1/2 cents.

LARGEST AND CHEAPEST FAMILY NEWS-PAPER IN THE WORLD!—Since the establishment of ALEXANDER'S WEEKLY MESSENGER, which, without exaggeration, boasts of as any large circulation, in every part of the Union, as any other Journal published in this city or elsewhere, it has been proverbially acknowledged by all who patronize it as the largest and cheapest paper in the world! To render this truth more obvious to the public, and to place competition at a still greater distance than it yet has been, the Proprietor will commence a new volume at the beginning of the year, very considerably enlarged and improved as regards its Typographical and editorial appearance, and the Literary reputation and interest which will be introduced into its columns. In this latter respect the first number issued in January, will convey a specimen of the zeal with which the Proprietor will prosecute his anticipated alterations! It will be printed on a DOUBLE SHEET twice the dimensions of any paper issued in Philadelphia—will contain all the choicest effusions of the English and American Annals for 1840! and will comprise Sixty-four columns of close print, and will be printed on one paper as would be the case in parts of the body concealed, and not only by the integuments, but by tendinous matter and fasciae, and where the nature of the disease renders the opportunity of post mortem examination exceedingly rare, your committee has been desirous to avoid that blameable haste in the decision of important questions which has too frequently given to plausible but ingenious methods of treatment a temporary reputation, to the abuse of public confidence and the injury of the profession, by granting to empiricism the weight and influence of great names.
The instruments of Dr. Chase have effected the permanent and accurate retention of the intestines in every case of hernia observed by the committee, without material inconvenience to the patient, and often under trials more severe than are usually ventured upon by those who wear other trusses—trials which would be imprudent with any other apparatus known to the committee.
The committee are induced, by the foregoing conclusions, to recommend, in strong terms, the instruments of Dr. Chase to the confidence of the profession, as the best known means of mechanical retention in hernia, and as furnishing the highest chances of saving the patient.
They have no hesitation in saying that were they individually affected with this terrible disease, they would resort to this method of treatment, with the triple view of securing their comfort, safety, and ultimate chance of recovery."
